PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience in building web applications using Python, React, JavaScript, PHP, and MySQL. Skilled in REST API development, CRUD operations, API integration, database management, debugging, and responsive UI design.

TECHNICAL SKILLS

Languages: Python, JavaScript, PHP, SQL

Frontend: HTML5, CSS3, React.js, Responsive Design

Backend: Python, PHP, REST API Development, API Integration, CRUD Operations

Databases: MySQL, SQL Queries, Database Management

Tools & Concepts: Git, GitHub, VS Code, Debugging, Testing, Version Control, SDLC

INTERNSHIP EXPERIENCE

Full Stack Developer Intern – Web Application Development

VDart Academy

Jan 2026 – Apr 2026

- Developed responsive web application modules using HTML5, CSS3, JavaScript, React.js, and Python.
- Built and integrated REST APIs using Python and PHP for dynamic data handling.
- Implemented frontend-backend integration to improve application workflow and user interaction.
- Performed MySQL database operations for storing, retrieving, and managing application data.
- Participated in debugging, testing, Git version control, and SDLC activities.

PROJECTS

Smart Intern Management System

React.js, Python, MySQL

- Developed a full stack system to manage intern attendance, performance, and activity tracking.
- Implemented CRUD operations, real-time attendance tracking, and admin dashboard features.
- Integrated frontend and backend using REST APIs for smooth data flow.

Smart Parking Management System

HTML5, CSS3, JavaScript, Python, MySQL

- Built a parking management system for vehicle entry, exit tracking, and slot allocation.
- Automated parking records using database-driven logic and CRUD operations.
- Improved parking efficiency through organized data handling and system automation.

Phishing URL Detection System

Python, Machine Learning

- Developed a system to detect malicious URLs using machine learning techniques.
- Extracted URL features such as domain structure, HTTPS status, and suspicious patterns.
- Implemented classification logic to support basic cybersecurity analysis.

EDUCATION

Master of Computer Applications (MCA)

M.A.M Business School, Anna University

2024 – 2026

CGPA: 8.35/10

Bachelor of Arts in English

St. Peter Arts and Science College, Bharathidasan University

2021 – 2024

CGPA: 8.25

ACHIEVEMENTS

- Secured 3rd Rank in MCA at M.A.M Business School.
- Won 2nd Prize in Pitch Perfect and Fantom Quiz at M.A.M CET, 2025.

CERTIFICATIONS

Foundation of Programming with Python

Mastering Data Analysis with Python Libraries

DevOps Decode

LANGUAGES

English, Tamil
